

CTF writeup (Ongzzz Team)

MISC

I Forgot:

Firstly, you need to download the file given which is mp3. Based on the question, you need to find the courthouse.

Step 1- Go to <https://www.aha-music.com/identify-songs-music-recognition-online/upload/14c75e26952cdf09555b5a4ced87b7ba#upload-div> and drop the file there.

Step 2- search the article based on the singers.

Step 3- You will find many the of the courthouse in the article.

Then submit your answer based on format given.

Find Me 1:

Firstly, you need to download the file given or you just can use linux terminal then put "wget <link>" to download it.

Secondly, you need to unzip the file first using unzip <filename>. After unzip, the name will be so long so you need to rename the file using "mv <filename> <renamefile>"

Then proceed to see what inside the file using cat <filename>

After that u will see the rights: <username>

Based on info given, you will be using osint using the username, then you will find him at twitter. From twitter, there is his name.

Then submit your answer based on format given.

Find Me 2:

Continue from 'Find Me 1', now you need to make contact with him without using any socials media.

From 'Find Me 1' at twitter, there are the github link at his bio. You click the link and you will find his github account.

From there, you will find the clue at about where he said that if you want to contact him, you need to email him.

So, using his id at github account, you need to email him and then he will give you the flags.

Problem solved
